8:30 am to 3:30 pm
The Magouirk Conference
Center
4100 W. Comanche
Dodge City, KS 67801

Who should attend?

- Architects
- Engineers
- Contractors, Subs & General
- Inspectors
- Geo Technical Engineers
- Anyone responsible for the design, construction and repair for street maintenance.

4 Continuing Education Credits available

- PDH's for Engineers
- AIA CES, HSW for Architects 
- Education Hours for Contractors

Our promotional partners are proud to present its 2012 CPR (Concrete Pavement Repair & Rehabilitation) Seminar. Our objective is to offer a program to persons responsible for street maintenance and repair knowledge necessary to maintain quality concrete streets.

The speakers will present the latest information on how to make repairs and the equipment necessary to perform them. Topics to discussed: Flowable Fill, Fast Track Patching, Working with KDOT Specifications, Roller Compacted Concrete, Whitetopping, and much more. We will also have a live demo!

REGISTRATION IS COMPLIMENTARY!!! Includes Lunch and breaks and any course materials. Please register by June 1, 2012. In the event you have registered and unable to attend, please feel free send a substitute. Substitutes are always welcomed.
